

COMPUTER SCIENCE AND INFORMATION TECHNOLOGY
MICROSOFT MCSE CORE
CERTIFICATE
Catalog 2005-2007

Microsoft certification preparation serves as the cornerstone of professional training in the field of Information Technology. Upon completion of this certificate, students will have completed core studies and preparation for several of the Microsoft Certified Systems Engineer (MCSE) credential examinations. Students are expected to sit for the exams as part of the coursework. Please consult with an advisor in the CIS area prior to enrolling in these courses. The program requires mathematical, computer software, and basic networking experience. ITCT 111 is a prerequisite, although instructor permission and/or transfer credits are acceptable for substitution.

			Credit Hours	Grade	
___	ITCT	130	Microsoft Operating Systems I	3	___
___	ITCT	131	Microsoft Operating Systems II	3	___
___	ITCT	132	Microsoft Operating Systems III	3	___
___	ITCT	133	Microsoft Operating Systems IV	3	___

Total credits required for this certificate is 12
