

Pre-Medical Sciences
Associate of Science Degree
Catalog 2008 – 2009

The Associate of Science degree is intended for transfer to a four-year baccalaureate granting institution. Those wishing to transfer to a baccalaureate granting institution and pursue a degree program are strongly encouraged to check with their advisor and carefully coordinate their coursework at San Juan College with the requirements of the transfer institution. In general, however, it is suggested that students complete the New Mexico Transfer Module as outlined below. Pre-requisite courses must be completed prior to the courses listed below (e.g., MATH 180 and 185 prior to MATH 188).

The following is a course outline is a guide not a prescription. For students transferring in such areas as medicine, veterinary medicine, dentistry, optometry, and pharmacy are strongly encouraged to check with their advisor. Students planning to apply to a post-baccalaureate medical education should major in biology, chemistry, or general science with a preponderance of courses in biology or chemistry.
