

AVIATION TECHNOLOGY
PROFESSIONAL AIRLINE CAREER ENHANCEMENT (PACE)
 Certificate Program
 Catalog 2009-2010

The PACE program is designed for pilots who have a minimum of 200 hours in flight time, and either:

Option A - Instrument, Commercial, Multi-Engine Certificates **OR**

Option B - Instrument, Commercial, Single-Engine Land Certificates. (Multi-Engine Land available through this program).

The program is a cooperative training effort between San Juan College and Mesa Air Group. Students must maintain a cumulative grade point average of 3.0 for all aviation (AVIA) courses to be guaranteed an interview with the company. Students who receive more than one "C" in their aviation courses will be dismissed from the program and cannot continue to attend aviation classes at San Juan College.

This program is available through pre-selection only.
