

DIESEL
Light Line Certificate Program
Catalog 2009-2010

The Diesel Light Certificate program is a three semester program designed to introduce a student to the field of diesel technology. Successful completion of this certificate program will prepare a student for a position as an entry-level maintenance technician for medium/heavy duty on-highway trucks in a fleet or dealer facility. A student must start the program in a fall semester to finish the program in three semesters.
