

DIESEL  
Light Line Certificate Program  
Catalog 2010-2011

The Diesel Light Certificate program is a three semester program designed to introduce a student to the field of diesel technology. Successful completion of this certificate program will prepare a student for a position as an entry-level maintenance technician for medium/heavy duty on-highway trucks in a fleet or dealer facility. A student must start the program in a fall semester to finish the program in three semesters.

NOTE: Courses indicated with an asterisk (\*) must be taken together.
