**A MESSAGE FROM OUR DIRECTOR:**

“All of us do not have equal talent, but all of us should have equal opportunity to develop our talents.”

This statement by John F. Kennedy was made in the early 60’s and essentially is the core concept of EDGE and all TRiO programs. The purpose contained within these words is to work as partners in unity by providing supportive services toward individualized success and realization of each person’s potential. It is a multifaceted and holistic venue that encompasses the areas of academic, person and professional growth and development.

Become a partner, an architect, and a builder in your own life and career, or facilitate and assist another. Join us on the EDGE.

**CALENDAR OF EVENTS:**

Managing with Time & Stress Workshop	October 11 Room 1416 1-2 pm & 4-6 pm
Knowing your Learning Style Workshop	October 15 Room 1416 4-6 pm
Arizona College Tour	October 18 & 19
Fort Lewis College Day Trip	October 25
Gates Millennium Scholarship Presentation for Native American & Hispanic Students	November 1 Room 1416 12-2 pm
WIA/JTPA Presentation by Ralph Chavez	November 4 Room 1416 3:00 pm

**WHAT CAN EDGE OFFER YOU?**

**Academic Advisement & Planning:** Educational needs will be assessed to provide information for the academic section of each participant’s IDP ( Individual Development Plan). Each participant will also be advised by an EDGE professional staff member.

**Tutoring:** Individualized tutoring arrangements will be made through the Academic Specialist, Brooks Heath. Each participant will aid in creating his/her specific tutoring schedule.

## ON THE LIGHTER SIDE

### Riddle Me This:

- 1) If there is a basket of 13 apples and you take three of them, how many apples do you have? 1 10 3 0
- 2) How many 2-cent stamps does it take to make a dozen? 6 12 10 0
- 3) If a rooster is perched on the top of a barn with the barn roof sloping east and west, and just as the sun rises the rooster lays an egg, on which side of the barn will the egg roll? east neither west
- 4) If you divide 14 by 1 half, what do you get? 28 19 10 7
- 5) If you threw a white hat with a blue ribbon into the Red Sea, what would it become? wet pink purple blue
- 6) How many animals did Moses take with him on the ark? 2 of every kind 1 of every kind 15 total 0
- 7) How many innings are pitched in a game of T-ball? 0 10 9 5
- 8) If it takes two men 4 hours to dig one hole, how long does it take them to dig half a hole?  
you can't dig half a hole 1 hour 2 hours 17 years
- 9) If a plane crashes between the border of the US and CANADA where do you bury the survivors?  
In the USA in the water, duh you don't in Canada
- 10) How much wood can a woodchuck chuck? 10 lb 6 lb for every pound he weighs 333lb he can't chuck any wood

Answers are at the bottom of the page, upside down.

## FROM THE INSIDE

An Interview with one of your own

"Nice people, private labs and tutoring, and a great chance to travel," is fellow EDGE participant Delbert "Bo" Dale's favorite part of the program. In a recent interview with Bo, we got a better glimpse into why students might join the program. When asked why he joined in the first place, Bo's response was "looking for financial guidance." It is true that many participants joined the EDGE program for financial purposes, but there is much more to offer. Academic and career counseling, assistance in choosing a major and tutoring are what Bo now expects to receive from the program. According to Bo "If you're struggling in finding scholarships and grants or with classes, the EDGE program is the place where you need to be."

# EDGE

## On The Lighter Side Answers

1) 3-we didn't ask how many apples were left in the basket.  
2) 12-no matter what the value of the stamp, you still need  
to make a dozen. 3) neither-roosters can't lay eggs. 4) 28-  
try it on your calculator if you don't believe it. 5) wet-  
because it fell in water! 6) 0-Moses took no animals on the  
ark, Noah did. 7) 0-because the ball isn't pitched, you just hit  
it off the T. 8) you can't dig half a hole-if you tried you'd  
just end up with a whole hole. 9) you don't-bury survivors.  
10) he can't chuck any wood-remember the riddle says : How much wood could a woodchuck chuck if he could  
chuck wood?
