
Certificate in Aviation Technology

Graduates of the Certificate in Aviation Technology program earn a private pilot license, instrument, commercial, and multiengine certificates. The program is a cooperative training effort between San Juan College and Mesa Air Group.

The certificate option is restricted to students who are previously degreed with an associate or bachelor degree from other institutions. All general education requirements are eliminated. All aviation (AVIA) courses are required. Graduates who have maintained a cumulative grade point average of 3.0, in all aviation (AVIA) courses are guaranteed an interview with the company. Students will be dismissed from the program if they have:

- 1) More than one "C" in a flight course (AVIA 145, 170, 190, 230, 267);
- 2) More than two "C's" in aviation (AVIA) courses

Students who are dismissed from the program will not be allowed to attend aviation classes at San Juan College.

This program is available through pre-selection only.

AVIATION TECHNOLOGY Professional Airline Career Enhancement (PACE) Certificate Program

The PACE program is designed for pilots who have a minimum of 200 hours in flight time, and either:

Option A - Instrument, Commercial, Multi-Engine Certificates Or

Option B - Single-Engine Land, Instrument, Commercial Certificates, (Multi-Engine available through this program)

The program is a cooperative training effort between San Juan College and Mesa Air Group. Students must maintain a cumulative grade point average of 3.0 for all aviation (AVIA) courses to be guaranteed an interview with the company. Students who receive more than one "C" in their aviation courses will be dismissed from the program and cannot continue to attend aviation classes at San Juan College. This program is available through pre-selection only.
