

BUILDING TRADES

Associate of Applied Science Degree

There are two options available for students interested in a career in Carpentry, a two-year Associate of Applied Science degree and a one-year certificate. Students will prepare for work in both rough and finish carpentry. Besides learning to read and understand blueprints and instructions from architects and builders, students practice estimating costs and time requirements needed to finish various projects.

In rough carpentry, students practice skills by erecting various frame structures. In finish carpentry, students will set door units and cabinets. Students build a house as part of their laboratory experience.

Note: This program requires that the student purchase his/her own tools. To obtain a list of required tools, contact the program instructor.

Note: Students must earn a grade of "C" or higher in all courses in order to receive a degree or certificate.

1st Semester	Credits
CARP 111* Beginning Carpentry I	8
CARP 115* Beginning Carpentry II	10
MATH 113 Applied Mathematics for Vocational Students	3
Total	21
2nd Semester	
CARP 121* Intermediate Carpentry I	8
CARP 127* Intermediate Carpentry II	10
Total	18
3rd Semester	
CARP 221 Construction Supervision (offered Fall or Spring)	6
BADM 114 Introduction to Business	3
COSC 125 Business Microcomputer Applications	3
ENGL 118 Technical Composition	3
Total	15
4th Semester	
BADM 230 Business Law	3
ENGL 218 Advanced Technical Composition	3
SPCH 110 Public Speaking OR	
SPCH 111 Interpersonal Communications	3
Humanities/Social Science Elective	3
Total	12
Total Credits 66	

*CARP 111 and 115 are taught in the **fall semester only** and must be taken together. You must sign up for both when registering. You may not take one or the other.

*CARP 121 and 127 are taught in the **spring semester only** and must be taken together. You must sign up for both when registering. You may not take one or the other. Prerequisites: CARP 111 and CARP 115.
