

HUMAN SERVICES

Associate of Applied Science Degree Substance Abuse Studies

San Juan College offers the Associate of Applied Science in Human Services with an emphasis in Substance Abuse Studies as an occupational training and job upgrading program. The curriculum is designed to provide the educational skills and practical experiences necessary to enable a student to enter this occupational field. The program is designed to provide some of the education required by the State of New Mexico for certification as a substance abuse counselor. A course in ethics, additional workshops, and minimum work experiences are also needed for certification. Check with your advisor for further information.
