

LATIN AMERICAN STUDIES

Latin American Studies is an interdepartmental concentration designed to educate and inform students about the Latin American experience. The concentration provides a wide range of instruction in the histories, languages, cultures, arts, and contemporary situations of Latin American nations and peoples. The concentration not only stresses sound academic instruction but also encourages active involvement in Latin American communities through research, internships, and field experiences. Those wishing to transfer to a baccalaureate granting institution and pursue a degree program in Latin American Studies are strongly encouraged to check with their advisor. In general, however, it is suggested that students fulfill a portion of their elective credit requirements with the following courses. Upon completion of 18 credits in designated Latin American Studies courses, students shall be granted a Certificate of Completion of Latin American Studies. To be eligible for the Certificate, students must obtain a "C" or above in all courses taken within the concentration. For further information, contact the School of Humanities.

18 credits are required for the concentration, to be distributed as follows:

Required of all students completing the Latin Am. Studies Concentration:
